

4-Way 4 Drum Spill Pallet SKU# 5444-YE

***PATENT PENDING**

The ENPAC 4-Way 4 Drum Spill Pallet is the most innovative four drum pallet introduced in many years. Jam-packed with features, including a 12”H sidewall providing easy access to drums, as well as removable grates to easily clean the sump in case of a spill. It has been specifically designed for use with all material handling equipment, including forklifts and pallet jacks, and can be lifted from all four sides. Nestable in design with a compact footprint, it is the most efficient spill pallet to ship. It meets or exceeds all regulatory requirements and is tough enough for all environments.

- Holds (4) 55-Gallon Drums
- Integrated pedestal system with 6000 lbs load capacity
- Low profile sidewall for easier dispensing and loading
- 66 Gallon Capacity meets EPA 40CFR 264.175- secondary containment requirements
- Forklift and Pallet Jack compatible
- Removable grates for easy cleaning
- 100% polyethylene
- Hot-box tested for performance in the world’s harshest environments
- Available with or without a drain
- Optional tarp available for outdoor use
